产品和安全证书

Safety certification and testing of consumer and industrial products and components.

With the CE mark, which is obligatory in the European Union member countries, the manufacturer states that the individual product is compliance with the general safety regulations in the CE-marking directives.

The Eurasian Conformity mark indicate products that conform to all technical regulations of the Eurasian Customs Union. EAC-marked products meet all requirements of the corresponding technical regulations and have passed all conformity assessment procedures.

卫生，健康和环境保护

It certifies the hygienic quality of machines intended for production of food and beverages.

All the machine components in contact with water and steam undergo the Ruveco Teck coating process which drastically reduces the risk of release of metals in the delivered beverages.

It certifies that the electrical and electronic equipment do not contain levels of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDEs) above the legally permitted limit.
